

## Peel n Pour™ Liners *For Dry Food Products*

Simplified packaging solution for improved dosing control

As consumer preferences trend toward enhanced convenience and eco-conscious solutions, food brands look to deliver with packaging innovation. TekniPlex's Peel n Pour™ dispensing liners are a simple and affordable alternative to plastic sifter fitments and orifice reducers used in packaging for dry food goods.

Peel n Pour's strong induction heat seal preserves product freshness, while the customizable liner enables convenient, controlled dispensing for a wide range of dry food products.

### Features and benefits:

- Strong induction seal prevents leaks and preserves product freshness
- Fully customizable liners and peel-tabs with multiple configuration options
- Simplify sourcing demands
- Reduce weight and production costs
- Sealing capabilities for all bottle types, including HDPE, PP, PET, and glass containers
- Printed liners are available for enhanced brand aesthetics

Peel n Pour™ liners provide the functionality of specialty closures all in one lightweight, recycling-friendly seal, making them an ideal solution for companies looking to simplify their packaging.
